+ DRIVER

# BUGGY CAN-AM

## w/ ULTRA ARM

The Buggy/QUAD is a powerful off-road tracking vehicle, modified by us with a double rear air suspension, adjustable in height and comfort. It has 85 Bhp, capable of reaching a maximum speed of 100 Km/h.

If off-road means: fields, beaches, forests, narrow passages, through muddy and rocky terrain, the CAN-AM has the power and the ground-clearance to get you there.

Option to remove the Ultra Arm set up and swap to Post Rig 150mm.

**BUGGY CAN-AM**  
w/ POST RIG
